Experience

- **Laboratoire d'informatique de l'cole Polytechnique (LIX)**, Research Engineer, Palaiseau, Fr (06.2018 - Now)
  - Influence Estimation and Maximization using Machine Learning
- **University of Houston, Computational Physiology lab**, Teaching Assistant Houston, TX (08.2017 - 05.2018)
  - Software Engineering, Statistical Methods in Research
- **University of Houston, Computational Physiology lab**, Research Assistant Houston, TX (08.2016 - 08.2017)
  - Forecasting driving anomalies using physiological variables with Extreme Gradient Boosting
  - Statistical analysis and inference from behavioral studies on distracted driving
  - Management and curation of wearable and vehicle sensor data for physiological experiments
- **National Center for Scientific Research Demokritos**, Research Assistant, Athens, Greece (9.2014 - 07.2016)
  - Brain Computer Interface tutorials for university students and presentations for highschool students
  - Implementation of a profiling server that models the creativity of its users based on computational creativity principles
  - Implementation of web services that use natural language processing, unsupervised machine learning and web crawling to model the creativity in essays written by children, in English, German and Greek

Education

- **Ms. in Computer Science**, University of Houston, Houston, TX (08.2016 - 05.2018)
  - Advisor: Prof. Ioannis Pavlidis
- **Diploma in Informatics and Telematics**, Harokopio University of Athens, Greece (09.2010 - 07.2014)
  - Advisor: Prof. Iraklis Varlamis
